Audi Emergency Response Guides Audi As part of the Alternative Fuel Vehicles Safety Training program, the National Fire Protection Association (NFPA) is working with Audi to help prepare the nation's fire service and other first responders for the growing number of alternative fuel vehicles on the road.

Audi Emergency Response Guides - NFPA

Rear collision detection and preparation. Audi pre sense® rear uses radar sensors in the rear bumper to help detect an impending rear-end collision, and can initiate preventive measures. Among other things, this system helps by pretensioning the front safety belts and automatically adjusting

the occupants' seats to a more optimal position.

Audi Driver Assistance Systems | Audi USA | Audi USA

Audi pre sense rear uses radar sensors in the rear bumper to detect an impending rear-end collision, and it initiates preventive safety measures. These include pretensioning the front seat belts by electric power and closing the windows and sliding sunroof.

Whether you financed the purchase of your Audi or you are leasing it, collision insurance is required. This helps protect you and the finance company by helping to ensure sufficient funds are available to repair the vehicle in case of a collision. Certain consumer rights are included with the purchase of an automotive insurance policy.*5
