Certified Network Defender (CND) - EC-Council iClass

Defense in depth is nothing but the active deployment of Computer Network Defense (CND). According to the U.S. Joint Chiefs publication "Joint Pub 3-13, Information Operations" CND involves actions taken via computer networks to protect, monitor, analyze, detect, and respond to network attacks, intrusions, disruptions, or other unauthorized actions that would compromise or cripple defense information systems and networks.

Instructors, BEWARE. Please evaluate a review copy before you commit your hapless students to this bundle of misinformation. It appears to have been written by someone who has no personal experience with network hardware and who is merely parroting back information, like a student quoting from notes he copied down from the board but doesn't understand and therefore mischaracterizes.
