Crisis at Adolescence: Object Relations Therapy with the ...

In pursuit of imaginary freedom, a teenager can go to extreme deeds: leave home, do not go to school, constantly object to parents, shout and hysterical. This is a typical reaction for this age, so parents need to have patience and tact and talk more often with their son or daughter, do not miss the psychological breakdowns.

What is the crisis of adolescence? | Competently about ...

If an adolescent has an identity crisis they may have a tendency to be aggressive and have a volatile personality (Christopher, Nangel & Hansel, 1993). Patrick and Rich (2004) considered that utilizing object relations while providing learning skills to adolescents with anger management issues, helped connect them with their internal world.

Object Relations/Attachment Theory and Adolescents: A ...

Identity normally becomes a central issue of concern during adolescence, when decisions about future vocational, ideological, and relational issues need to be addressed; however, these key identity concerns often demand further reflection and revision during different phases of adult life as well.
