Ducati is13 diesel engine cold start - YouTube

There was a Ducati diesel engine in Lancaster UK that was on eBay uk in April 2017. No dynastarter or front cover however. Without the starting gear it is not much use. I would guess that it came from a boat on the Lancaster Canal as every so often British Waterways evict boats that have been abandoned and are in arrears with their mooring fees.

Complete Engines for Ducati for sale | eBay

The next new Ducati engine to appear after the Ducati Apollo was the 90° V-twin, initial Grand Prix racing versions being 500 cc, and the production bikes were 750 cc. There was also the Ducati 750 Imola Desmo that won at Imola in 1972. These engines had bevel gear shaft drive to the overhead camshaft, and were produced in round, square, and Mille crankcases. In the 1980s these gave way to the belt drive camshaft engines that have continued to this day, in air-cooled and liquid-cooled form. The

Ducati L-twin engine - Wikipedia

Ducati has also manufactured engines with one, two, three or four cylinders; operated by pull rod valves and push rod valves; single, double and triple overhead camshafts; two-stroke and even at one stage manufactured small diesel engines, many of which were used to power boats, generators, garden machinery and emergency pumps (for example, for ...
