The last part ("not my fault you're fat") was unnecessary, though. I'd maybe go with ESH because it could have been handled better, for example by saying that her comments were uncomfortable and please stop, instead of making insults back.

It's not my fault that
you hate me, it's yours.

Your upset is not the
result of my views, it's
the result of your
intolerance. The fact

you don't like what I
say doesn't mean that

I'm wrong or you're
right, it merely means
we disagree and you

choose to be upset by
that fact. That's not
wisdom on your part,
it's immaturity.

an accident that's not
