Overview. Lean In is a nonfiction book that spans multiple genres. Drawing on both research and her own experiences, Facebook COO Sheryl Sandberg describes how and why gender inequality continues to operate in the modern workforce, and offers advice for women seeking to balance a career and family. Ultimately, Sandberg argues that full equality will only come about when women "lean in," pushing past their own fears and misgivings to demand equal opportunity and treatment.

### **Lean In (Sandberg) - LitLovers**

In Lean In, she shares her personal stories, uses research to shine a light on gender differences, and offers practical advice to help women achieve their goals. The book challenges us to change the conversation from what women can't do to what we can do, and serves as a rallying cry for us to work together to create a more equal world.

### **Lean In Book - Lean In**

The principles of Lean manufacturing, now more broadly referred to as Lean thinking, have since been adopted outside of traditional manufacturing in fields like construction, healthcare, financial services, government, project management, and knowledge work. Using Lean for knowledge work has been met with some doubt and resistance by people who argue that because the field is essentially non-replicable and non-repetitive, it is not suited to standardization.

### **The Complete Guide to Lean Project Management | Smartsheet**

Lean In continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can't do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career.
