## **Mentoring and Supervision in Healthcare Gopee Neil ...**

Having a mentor or supervisor means being in a level, confidential relationship. You, the client, set the agenda and bring your own professional issues to the session. You are listened to, supported in a non-judgemental environment, and guided towards outcomes which you frame, own, define and take forward. Mentoring & Supervision creates a space where practitioners can explore and reflect on the many issues that arise within our everyday acupuncture practice.

Mentoring and Supervision in Healthcare. Neil Gopee. SAGE Publications, 2008 - Medical - 211 pages. 0 Reviews. This authoritative and up-to-date book examines the knowledge base, skills, and attitudes required for mentoring in the context of health care. It is firmly based on current knowledge in the field, and directly addresses the most recent Nursing and Midwifery Council s standards and competencies for mentors.

## **Mentoring and Supervision in Healthcare - Neil Gopee ...**

Mentorship and coaching interventions were the core component of each of the PHIT projects, but their design and implementation were informed by identified health system needs and other contextual factors, including the population size, level of health system targeted, existing number of health facilities and providers, identified gaps being addressed, PHIT project intervention design, and level of local and regional capacity for, and progress in, health systems strengthening.

## **Mentorship and coaching to support strengthening ...**

Mentorship is a vital part of pre-registration nurse and midwifery training, as it helps to establish a positive environment for learning and that nurturing from mentors encourages personal and professional development. "Good mentorship is important because it instils confidence in the student."

## **The Importance of Effective Mentorship in Healthcare ...**

The author introduces the topic by presenting a broad context for the adoption of coaching and mentoring in the health and social care environment and explaining that increasing demands for services, coupled with diminishing resources and the need for ongoing performance monitoring of services, is creating an environment of work that is not only unstable, but one that also challenges quality of life and job satisfaction for people working in these sectors.

## **Review of Coaching and Mentoring in Health and Social Care ...**

The 1990s were when nurse education programmes became a part of university provision, which further opened up authoring opportunities, and I negotiated with Alison Poyner, Commissioning Editor at SAGE Publications, to write the Mentoring and Supervision in Healthcare book, the first
