Attitudes Toward Suicide: Examining Qualitative Data

Suicide: A Study in Sociology is an 1897 book written by French sociologist Émile Durkheim. It was the first methodological study of a social fact in the context of society. It is ostensibly a case study of suicide, a publication unique for its time that provided an example of what the sociological monograph should look like. According to Durkheim, the term suicide is applied to all cases of death resulting directly or indirectly from a positive or negative act of the victim himself, which ...
