capable of replacing human labor in a range of tasks. Industrial robots are argued to have already deeply impacted the labor market and are expected to transform it in the decades to come (e.g., Brynjolfsson and McAfee, 2012; Ford, 2016). Indeed, between 1993 and 2007 the stock of robots in the United States and Western

Watched the video.

Your craftsmanship has become quite good.

Not that it was bad in the past, but you were known as the Queen of Shitty Robots for a reason. A hilarious reason, lots of them really, but shitty none the less. I also think you're getting funnier and I didn't think that possible. Thanks for posting this.
