Shadows in the Water. Thomas Traherne - 1636-1674. In unexperienced infancy Many a sweet mistake doth lie: Mistake though false, intending true; A seeming somewhat more than view; That doth instruct the mind In things that lie behind, And many secrets to us show Which afterwards we come to know. Thus did I by the water's brink Another world beneath me think; And while the lofty spacious skies Reversèd there, abused mine eyes, I fancied other feet Came mine to touch or meet; As by some ...

Shadows on the Hudson is an award winning waterfront restaurant located in Poughkeepsie, NY. Our building is perched on a cliff 40 feet above the Hudson River and just 50 feet from its eastern bank. This prime location affords us one-of-a-kind, truly grand views of the Mid-Hudson Bridge to the north and miles of open river to the south.

These shadows are a sign of silt in the river. Pure water – with no suspended particles – holds no shadows. For more detail on this, see p.142-3 in How to Read Water. Remember that shadows are not the same as reflections. We will still get a mixture of light and darker reflections off water, pure or silty, when looking across it.

And then I found it, the WATER series. I was hooked on the first book Shadows in the Water from page 1. Following the main character Lou Thorne, I was drawn into a life that was horrendous to even imagine. Gaining strength from the terror of her world, she moves through the days hell bent on revenge.

Drawing on detailed data from NASA's Lunar Reconnaissance Orbiter, the researchers estimate that the moon could harbor roughly 15,000 square miles of permanent shadows in various shapes and sizes—reservoirs that, according to theory, might also be capable of preserving water via ice. Future lunar residents, in other words, may be in luck.
