The Complete Guide to Synthesizers, Sequencers and Drum Machines. Synthesist Espen Kraft shared this video review of the vintage book The Complete Guide to Synthesizers, Sequencers and Drum Machines, by Dean Friedman. Kraft notes that the book 'had colossal impact on me in 1985, as a young teenager looking to buy my first synth. I read it for hours each day, memorizing each word about the synths he goes through in the book.'.

The complete guide to synthesizers (Book, 1982) [WorldCat.org]

When you fire up a synth for the first time, it's inevitable that you'll attempt to get an idea of its capabilities by playing some of the presets. However, if this is all you ever do and you never attempt to program any custom sounds of your own, you'll be missing out. As MusicRadar knows all too well, though, synth programming can be daunting if you've never done it before, so here are eight ...
