The Deep Underground Command Center (DUCC), sometimes also called the Deep Underground Command and Control Site (DUCCS), was a United States military installation that was proposed on January 31, 1962,; 317 to be "a very deep underground center close to the Pentagon, perhaps 3,000-4,000 feet down, protected to withstand direct hits by high-yield weapons and endure about 30 days in a post-attack period."

Deep Underground Command Center - Wikipedia

Potentially the most mysterious bunker, the Deep Underground Command Center (DUCC) was a military installation proposed in the early 1960s. Situated 900-1,200 meters (3,000-4,000 ft) below the Earth's surface near the Pentagon, the facility was designed to resist blasts of 200- to 300-megaton weapons without losing its structural integrity.

Top 10 Secret United States Government Bunkers - Listverse

A bunker is a defensive military fortification designed to protect people and valued materials from falling bombs or other attacks. Bunkers are mostly underground, in contrast to blockhouses which are mostly above ground. They were used extensively in World War I, World War II, and the Cold War for weapons facilities, command and control centers, and storage facilities. Bunkers can also be used as protection from tornadoes. Trench bunkers are small concrete structures, partly dug into the ground
