This Component Maintenance Manual (CMM) has been prepared in accordance with Air Transportation of America (ATA) Specification 100. It provides instructions for proper storage, servicing, replacement, repair, and disposal of RG® Series valve regulated lead-acid main aircraft batteries manufactured by Concorde Battery Corporation. 2.

CONCORDE BATTERY CORPORATION - AGM Aircraft Batteries

This results in overcharge, especially in temperatures above 25°C (77°F). In a maintenance type battery (filler caps), the need to add water beyond small amounts every 3-6 months, indicates the battery is being overcharged. Sealed "dry" maintenance-free batteries also lose electrolyte through their venting valve in the form of a vapor-gas.

Why Use an Aviation-Specific Battery Charger-Maintainer?

Things to know about car batteries – maintenance-free battery technologies. Almost all lead-acid batteries, regardless of whether they are classic wet batteries (SLI) or modern AGM batteries are now maintenance-free. This means that topping up with distilled water is not necessary.
