The Weaponization of Trade: The Great Unbalancing of ...

Weaponization is the transformation of a benign instrument into a means of aggression and, increasingly, we have observed states wielding trade coercively. In short, through language, the character of trade has changed from an implicit tool of coercion to the explicit means through which foreign policy objectives are achieved.

The weaponisation of trade - Deutsche Bank

Trade is being weaponized - and this isn't good. As politicians on both sides of the Atlantic raise the stakes, trade is increasingly a tool of coercion to achieve strategic influence. This book looks at the risks for us all as trade becomes an instrument of foreign policy, and shows how politicians could turn things around.

The weaponization of tariffs means our trading partners will have to protect themselves. They will do so by becoming less dependent on American products and markets. Many American companies who are just innocent bystanders are going to be harmed. For example, China can restrict the export of rare earth metals.

SWIFT and the Weaponization of the U.S. Dollar The U.S. has used the system as a stick before. Continuing down this path could trigger de-dollarization and an ensuing currency crisis. Saturday, October 6, 2018

SWIFT and the Weaponization of the U.S. Dollar

The Great Game is said to have begun on 12 January 1830 when Lord Ellenborough, the president of the Board of Control for India tasked Lord William Bentinck, the Governor-General of India, to establish a new trade route to Bukhara.. Following the Treaty of Turkmenchay 1828 and the Treaty of Adrianople (1829), Britain feared that Persia and Turkey would become protectorates of Russia.

The Great Game - Wikipedia

World trade experienced a sudden, severe, and synchronised collapse in 2008 – the steepest drop in recorded history, and the deepest fall since the Great Depression. This column argues that 2020 will show a trade collapse that is far larger since the ‘COVID concussion’ is both a demand shock and a supply shock while the 2008-09 collapse was driven mostly by a demand shock.
